An Examination of the Predictive Properties of the Fullerton Advanced Balance (FAB) Scale

Danielle Hernandez, M.S. and Debra J. Rose, PhD.
Fall Prevention Center of Excellence • California State University Fullerton

You can't help but wonder what the results of this study were. It seems like there was a lot of information presented, but it's hard to make sense of it all. Can you provide a summary of the key findings and conclusions from this research? Are there any notable implications for fall prevention and intervention strategies?
